

## Annual report on St Leonards Lexden Brick Club

The Brick club operates on Tuesdays during school holidays, it is completely free to those attending with Tea, Coffee and juice available. Over the past year we have welcomed many new youngsters along with in some cases older siblings. Brick club provides a platform where the youngsters can design and build many interesting projects.

On average we have about fifteen youngsters plus their parents, the club operates for two hours each session, and we are grateful when parents and guardians donate towards our running costs. This is very useful, but the club is run for the benefit of the wider community. Our thanks must go to our stalwart helpers who give up their time to ensure things run smoothly.
